Data Summary Sheet – Lab 4

Instructions: For each participant, the condition has been already recorded. You will need to additionally record age, gender, number of words correctly recalled, and number of incorrectly recalled words (do not include omissions). Do not reveal this data sheet to any of your participants until the completion of the experiment.

Participant	Condition	Age	Gender	Number correctly recalled	Number incorrectly recalled
1	CC				
2	NCC				
3	CNC				
4	NCNC
